

GSE211567 final discovery modules: GO-term counts

Final discovery module

BACT_M1 | Bacterial-higher cytoplasmic translation and ribosomal protein programme

BACT_M2 | Bacterial-higher mitochondrial respiration and oxidative phosphorylation programme

VIR_M1a | Viral-higher broad antiviral and interferon-stimulated defence programme

VIR_M1b | Viral-higher viral restriction and type I interferon signalling subgroup

VIR_M2 | Viral-higher cytokine and innate immune regulation programme
